Prerequisites: SPED 230 and Junior or above status

SPED 334 DIFFERENTIATED INSTRUCTION FOR DIVERSE CLASSROOMS3 Credits

This course covers teaching strategies, laws, and procedures for working with students with special needs within diverse and inclusive classroom environments. Students will participate in hands-on activities, identify key instructional strategies and accommodations for students with special needs including gifted/talented and ELL students and become familiar with laws and policies governing special education practices in today's schools.

Prerequisites: PSYC 231, SPED 230, and Sophomore or above status

Requirements: This course is a required education course for all students wishing to be teachers, and should be taken as part of the student's junior year, prior to the Professional Year.

SPED 390 INTERNSHIP IN SPECIAL EDUCATION1-3 Credits

Provides practical experience in an agency related to education/special education.

Prerequisites: Sophomore or above status

Add Consent: Department Consent

Notes: Interested students should contact the Internship and Career Services Office to secure application materials; application should be made prior to the semester the internship will be conducted; the amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant and the work hours; the internship will not replace any Special Education or Education observation and/or field experience requirements or any required courses and should not be done while

SPED 400 INDEPENDENT STUDY OR RESEARCH1-3 Credits

Study or research in an area of special interest.

Prerequisites: Junior or above status

Add Consent: Instructor Consent

Notes: The number of credit hours is determined by the topic and the amount of work required.

Requirements: Approval of instructor, Academic Dean and Academic Vice President required.

SPED 432 ELEMENTARY/MIDDLE SCHOOL/SECONDARY METHODS AND MATERIALS FOR MILD/MODERATE DISABILITIES3 Credits

This course covers instructional, curricular, and adaptive or assistive technological approaches to accommodate the academic, social, emotional, cognitive, linguistic, and physical needs of learners with mild/moderate disabilities. Based on best practice learning theories for students with special needs, information obtained from this course will center on the use of methods and materials to facilitate learning of elementary/middle grades/secondary students with mild/moderate disabilities.

Prerequisites: Junior or above status

SPED 433 PROGRAM DEVELOPMENT, IMPLEMENTATION, AND MANAGEMENT3 Credits

This course teaches development, implementation, and management of special education programs, which include individual education plans (IEP), individual family service plan (IFSP), and transition plans. This course will include (a) a background of laws leading up to IDEA, (b) a working knowledge of IDEA and related amendments, (c) hands-on experience in the formulation and development of IEP's, IFSP's, transition plans, and (d) techniques/strategies in adapting curriculum for students with special needs (e) identification of community resources and support for families of students with disabilities.

Prerequisites: Junior or above status

SPED 435 ASSESSING INDIVIDUALS WITH MILD/MODERATE DISABILITIES3 Credits

Provides opportunities to learn assessment procedures and practices used to obtain information about the learning and development of students with mild/moderate needs, including administering, interpreting, and reporting test results and formulating instructional objectives and subsequent learning programs. Understanding how information obtained from quantitative/qualitative measures and teachers' experiences influence their abilities to interpret strengths and needs, formulate instructional objectives, develop curriculum, and select appropriate teaching strategies.

Prerequisites: Junior or above status

SPED 437 SPECIAL TOPICS IN SPECIAL EDUCATION1-3 Credits

Development, implementation, and management of Inclusive Classrooms in the K-12 school environment. This course will include (a) intervention [RTI]; (b) inclusive classroom environments; (c) federal laws including IDEA; (d) classroom management and inclusive classroom behavior interventions; (e) curriculum adaptation; and (f) providing supportive services for all children including those who are at risk.

Prerequisites: Junior or above status

SPED 438 CONSULTATION/COLLABORATION3 Credits

Consulting and collaborating skills will be developed for special educators working with parents, para-educators, and other professionals working with students with special needs. Emphasis will be given to formal and informal meetings and conferences in planning, developing, and implementing special education programs. This course will cover consultation/collaboration theory, group dynamics, the special educator as a consultant, the importance of consultation/collaboration in an inclusive setting, needs assessment research and staff development, and dealing with conflict.

Prerequisites: Junior or above status

SPED 439 LANGUAGE AND LEARNING DISORDERS3 Credits

This course in an introductory course for undergraduate students on the subject of language and associated learning disorders. It provides students with an opportunity for integrating information from several content areas (i.e., language development, learning disorders, and anatomy) and applying that knowledge to children presenting language-based learning disorders.

Prerequisites: Junior or above status

SPED 444 SPECIAL EDUCATION PRACTICES AND STRATEGIES1 Credit

This course covers teaching strategies, development of curriculum units and lesson planning, questioning skills and motivation techniques for teachers teaching within inclusive classroom environments.

Prerequisites: Junior or above status

Add Consent: Department Consent

Drop Consent: Department Consent

Notes: This course is taken as part of the professional year.

SPED 455 CHARACTERISTICS OF LEARNING DISABILITIES3 Credits

Social, emotional, physical, and cognitive characteristics of learning disabilities, identification, diagnosis, learning characteristics, and behavioral problems presented by learners with learning disabilities in the general education classroom.

Prerequisites: Junior or above status
